ABOUT ME

Proactive Tech Lead and Staff Software Engineer with 15+ years of experience across logistics, fintech, and e-commerce.

Driven by understanding client needs and solving real business problems through technology, and passionate about sharing knowledge and mentoring engineers so the whole team grows together.

Technically, focuses on building scalable, asynchronous, event-driven systems in TypeScript, backed by strong observability practices.

EXPERIENCE

Feb 2025 – Present

SENIOR SOFTWARE ENGINEER

Portless — Canada - Remote

- Design, implement, and monitor asynchronous integration systems powering global logistics operations, using Firebase (Auth, Functions, Hosting), Hookdeck, and Inngest.
- Implemented distributed Sentry tracing across asynchronous Inngest event chains, resolving broken trace propagation via a custom middleware that embeds trace context in event payloads.
- Uses AI-assisted development (Claude Code) to accelerate delivery while maintaining high code quality.

Aug 2022 – Feb 2025

TECH LEAD

Liber Capital - São Paulo, Brazil - Remote

- Led technical decision-making, streamlined Scrum ceremonies, and provided coaching that drove measurable improvements in team performance.
- Led the migration of a key partner's complex credit platform, managing investment funds and credit engines.

Apr 2021 – Jun 2022

SENIOR FRONTEND DEVELOPER

HeroSpark - Curitiba, Brazil - Remote

- Built a new checkout web application focused on performance and conversion rate for online course sales.
- Stack: Nuxt.js/Vue.js, TypeScript; hosted as a static site on AWS S3 with GitHub Actions CI/CD.

Jun 2020 – Mar 2021

SENIOR FRONTEND DEVELOPER

FreteBras — São Paulo, Brazil - Remote

- Rebuilt a legacy PHP/Bootstrap freight-shipment platform from scratch using Next.js/React; built the CI/CD pipeline (GitLab CI, Docker, AWS EKS).
- Acted as unofficial tech lead: technical specs, user stories, pair programming, and led the frontend chapter.

Apr 2019 – May 2020

SENIOR FRONTEND DEVELOPER

CargoX — São Paulo, Brazil - Hybrid

Jun 2017 – Mar 2019	SENIOR FRONTEND ENGINEER <i>Ciclic — São Paulo, Brazil</i> - Joined the founding team of Ciclic, an investment and insurance brokerage backed by Banco do Brasil, building the company's stack from zero. - Built the company website, an investment simulator web app, and the customer sign-up flow (Vue.js, Vuex, SCSS).
Jan 2016 – Jun 2017	FRONT-END DEVELOPER <i>iCasei — São Paulo, Brazil</i>
Sep 2013 – Oct 2015	FRONT-END ENGINEER <i>Admotion S.R.L.</i> Developed the interface for a business intelligence web application (MARS); configured Google Tag Manager.
Mar 2013 – Sep 2013	FULL-STACK DEVELOPER <i>Agência Creative House</i> Developed hot sites, web apps and advertising pieces using Adobe Flash.
Jan 2011 – Feb 2013	JUNIOR PROGRAMMER <i>SEO Marketing Brasil</i> Developed and maintained institutional websites and WordPress themes/plugins; performed SEO optimization.
